

Ambion 100S

Odour Control

plasma-cleanair
AIR, ODOUR & GREASE CONTROL

Remove smells with a single unit

Simple to install, this low maintenance, versatile unit is perfect for safely and efficiently removing odours

- Low maintenance
- Simple installation
- Reliable and affordable odour control

*Plasma Clean Air is continuously improving its products and services and reserves the right to alter designs without prior notice

The Ambion 100S utilises plasma ionisation technology to destroy odours present in ambient air. It is suitable for a range of environments such as washrooms, restaurant kitchens, refuse storage and public waiting areas.

Simple to install, with low maintenance and running costs, this versatile solution provides affordable and reliable odour control, making it the perfect partner for a wide range of applications.

Benefits

- Low capital and running costs
- Simple installation and maintenance
- Aesthetic design
- Compact, lightweight and robust
- Quiet operation
- Environmentally friendly

AIR, ODOUR & GREASE CONTROL

Introduction to Odour Control from Plasma Clean Air

The Ambion utilises plasma ionisation technology, to destroy odours present in ambient air. The Ambion 100S is suitable for a range of environments such as washrooms, restaurant kitchens, refuse storage and public waiting areas.

Simple to install, with low maintenance and running costs, this versatile modular solution provides affordable and reliable odour control, making it the perfect partner for a wide range of applications.

Odour Control with Ambion

The Ambion is designed to inject charged ions including activated oxygen into rooms of up to 100m² to destroy odours in ambient air. It works by oxidising nuisance smells, leaving the air smelling hygienically clean. The Ambion 100S is suitable for a range of environments such as refuse storage areas, washrooms, hotel rooms, care homes and public waiting areas.

Installation

The Ambion is a plug and play system which is simply mounted on the wall, adjacent to the source of the odour.

Maintenance

A Plasma Clean Air service contract is available (please enquire) and in any case Plasma Clean Air would recommend:

- Routine cleaning of the housing and plasma ioniser
- A yearly service is recommended in accordance with the manual

Warranty

1 year Manufacturer's Warranty ([subject to terms and conditions](#))

Extended 5 year Warranty ([care plan available](#))

Technical Specifications & Data

Dimensions (HWD)	300 x 305 x 100mm
Operation	Continuous
Power	14W
